

DECEMBER 25 – CREDAI BHOPAL

ACTIVITY DETAILS

CREDAI Bhopal Delegation Calls on Hon'ble Chief Secretary to Discuss AI City Opportunities

A delegation of CREDAI Bhopal, led by President Shri Manoj Singh Meek, paid a courtesy visit to Shri Anurag Jain, Chief Secretary, Government of Madhya Pradesh, on December 11, 2025. The delegation conveyed its gratitude for the State Government's support under the Kamaal Ka Bhopal initiative, which is enabling the AI City project to progress towards ground-level implementation.

During the meeting, the Hon'ble Chief Secretary highlighted the significant role that CREDAI developers can play as development partners in the AI City. He encouraged member developers to explore collaborations with data center companies proposed within the project - through partnerships, joint ventures, or incentive-based models. Such engagement, he noted, would help bring global technical expertise to Bhopal, attract new investments, and support the establishment of world-class data center infrastructure in the state capital.

The delegation also presented details of an ongoing collaborative initiative between CREDAI and the Government of Goa, where CREDAI is working as an official partner. The Hon'ble Chief Secretary appreciated this model and expressed interest in evaluating its potential for replication in Madhya Pradesh.

CREDAI Bhopal confirmed its commitment to supporting forward-looking development initiatives and strengthening public-private collaboration for the growth of Bhopal.
